What is PeopleSoft?

PeopleSoft is a powerful enterprise system that has three core functions – HR, Finance and Campus Solutions (Student Information System).

- my.SDSU will impact the student experience significantly and impact the way our staff and faculty conduct business.

- Some examples of how our processes will change will be:
  - Faculty will be able to enter grades, view their class rosters, email students and view a detailed schedule.
  - Students will be able to check their financial aid awards, enroll in classes, view their student bill and see their transcript.
What systems will change & what will stay the same?

Certain systems will be modified as we transition to my.SDSU. However, a large majority will remain the same. These systems include:

- Canvas
- CashNet (Transact)
- Google Suite
- Handshake
- HealtheConnect
- OnBase
- SDSU Email
- SDSU Navigate (EAB)
- StarRez
